Mr. David Lazarides
UCR Board Systems

Subject: Proposal for volunteer commitment for design, construction and implementation of reporting system for UCR data.

To Whom It May Concern:

Central Analysis Bureau, Inc. is prepared to volunteer its assistance and available resources for one year to assist the UCR administration to create a reporting system which will allow for the import and analysis of data transmitted from the individual states subscribed to the UCR.

Included Service:

The following are the various services / resources CAB can provide on a volunteer basis:

1. Design and construct necessary tables to hold raw data
 - a. Data to be provided in delimited flat files and uploaded via FTP to CAB's servers – final specs dependent on specific fields maintained
 - b. Assist states with initial set up of data transmission capability
2. Import data provided by states on a daily basis at a predetermined time
3. Produce UCR Board reports on a daily basis
 - a. Reports will be generated in Microsoft® Excel format
 - b. Reports will be available for download daily via FTP access

CAB recognizes the terms set by the UCR Board that all data and reports belong to Board. CAB also recognizes that there is no compensation for resources or efforts expended, nor any guarantee to future consideration with regard to RFP's, contracts or works for which the Board expends funds. As agreed by the UCR this proposal, if accepted, is subject to a 30 day opt-out by UCR or CAB.
