State Motor Vehicle Administration Overall Compliance

- **38 States Participating**—states that provide data and inquire into the system before issuing new titles
- **6 States Providing Data Only**—states providing data but not making inquiries
- **7 States in Development** (includes the District of Columbia)

*Based on the most current Federal Highway Administration Data (2014)

This map represents state motor vehicle titling agencies' level of compliance with NMVTIS. These state agencies have separate responsibilities and reporting requirements under the NMVTIS rules and regulations than do other reporting entities, such as, junk/salvage yards and insurance carriers. Per the NMVTIS rules and regulations, state compliance includes providing data to NMVTIS, making title inquiries, and paying user fees.
