

National Motor Vehicle
Title Information System

Become an Approved NMVTIS Data Provider

NMVTIS

The National Motor Vehicle Title Information System (NMVTIS) is an electronic system that provides consumers with valuable information about a vehicle's condition and history. Prior to purchasing a used vehicle, users may access NMVTIS to find information about the vehicle's title, most recent odometer reading, brand history and whether the vehicle has been deemed a junk or salvage vehicle and is in the possession of a junk or salvage yard, or determined to be an insurance total loss. This information is very valuable to any consumer looking to purchase a used vehicle.

NMVTIS was created to:

- Protect states and consumers (individual and commercial) from fraud.
- Provide consumers protection from unsafe vehicles.
- Reduce the use of stolen vehicles for illicit purposes including funding of criminal enterprises.
- Prevent the introduction or reintroduction of stolen motor vehicles into interstate commerce.

APPROVED NMVTIS DATA PROVIDERS

Approved NMVTIS Data Providers, operate under contract with AAMVA. Only approved data providers are authorized to sell NMVTIS Vehicle History Reports and display the NMVTIS logo. The listing of all current approved data providers can be found here, [Approved NMVTIS Data Providers](#).

Continued on back

BUSINESS MODEL

The model is simple, NMVTIS data is provided upon submitting a single Vehicle Identification Number (VIN) to AAMVA. The approved data provider is responsible for creating their own NMVTIS Vehicle History Report, for sale to consumers (individuals/businesses). There are specific requirements regarding the display of NMVTIS data on the Vehicle History Report. These requirements are outlined in the contract.

SYSTEM/APPLICATION DEVELOPMENT

The development cost of the web interface to request and receive the NMVTIS data is \$30,000. This fee must be paid before development work can begin and is due at contract execution.

Application structured testing and certification by AAMVA personnel is required before the application is permitted to go “live.”

FEE MODEL

Fees are charged on a single VIN inquiry basis, using a “single rate” pricing structure based on volume.

NEXT STEPS

All parties interested in becoming an Approved NMVTIS Data Provider must submit the following:

- A completed Application For Services form along with required financial documentation*
- Non-refundable application fee of \$1,000 payable by Electronic Funds Transfer (EFT) or check.
- A detailed description of the business plan to use the NMVTIS data, including, if available, potential customer base/industry/sector, transaction volumes, prior experience in the sector, technical resources, etc.
- **Notes:** **1.** Fees are subject to applicable sales tax. **2.** Interested parties must be a U.S.-based commercial entity. **3.** Approved NMVTIS Data Providers must agree all NMVTIS data will be stored on computer servers physically located in the U.S.

**Lack of financial documentation or length of credit history may require a deposit at contract execution.*
