SSA Leverages AAMVA DLDV to Offer Online SSN Card Replacements

The Social Security Administration (SSA) has expanded its online services to allow residents of U.S jurisdictions to replace Social Security Number (SSN) cards from the comfort of their home or office, without the need to travel to a Social Security office. SSA's Internet-based Social Security Number Replacement Card (iSSNRC) will reduce the number of SSN replacement card requests in SSA field offices and card centers. To increase security, the iSSNRC requires verification of driver's license and identification card information through AAMVA's [Driver License Data Verification \(DLDV\)](#). As a result, **the benefit of the iSSNRC application is only available to residents in participating DLDV jurisdictions.**

Nevada's Pot Testing of Drivers Should be Tossed, AAA Study Says

As Nevada voters grapple with a November ballot question of whether to legalize recreational use of marijuana, the study commissioned by AAA's safety foundation said it's not possible to set a blood-test threshold for THC, the chemical intoxicant in marijuana, that can reliably determine impairment. Yet laws in Nevada and four other states automatically presume a driver guilty if that person tests higher than the limit, and not guilty if testing lower.
