AAMVA Congratulates Rhode Island on a Successful S2S Launch
AAMVA congratulates Rhode Island on successfully implementing State-to-State Verification Service (S2S) during the weekend of June 1, 2019 and becoming the 25th participant using the new service. All migration activities have completed on schedule. CDLIS and S2S services are fully operational now. AAMVA would also like to thank volunteer states Nebraska and Illinois who assisted with Rhode Island's migration. Minnesota is scheduled to begin using S2S on September 30, 2019. Other jurisdictions will also begin using S2S in the upcoming months and AAMVA looks forward to supporting them during their onboarding process. Read more here.

Georgia Conducts NMVTIS Transactions Online
AAMVA is very pleased to announce that Georgia has recently implemented online updates and inquiry in NMVTIS. Congratulations, Georgia! For more information about NMVTIS federal compliance requirements, please contact Tom Manuel, AAMVA’s Senior Program Manager.

AAMVA Visits Ohio State Highway Patrol and BMV
Julie Knittle, AAMVA’s Director of Member Support, Regions 3 & 4, and Brian Ursino, AAMVA’s Director of Law Enforcement, met with Ohio State Highway Patrol (OSHP) Colonel Richard Fambro and members of his executive team on the morning of May 31, 2019. That afternoon, Julie and Brian met with Ohio Bureau of Motor Vehicles (BMV) Assistant Registrar Anne Dean and members of the BMV Executive team. These meetings served to strengthen already strong relationships, and both the OSHP and BMV teams learned more about their association, as well as AAMVA resources and benefits. They also shared the projects they are working on, as well as their current priorities and challenges.

AAMVA Visits Virginia DMV Headquarters in Richmond
On Thursday, May 23, 2019, the Virginia Department of Motor Vehicles (DMV)’s...
Sharon Brown, Director of Driver Services, and Cam Gutshall, Deputy Director of the Driver Licensing Division, welcomed AAMVA's Commercial Driver's License Information System Business Analyst (CDLIS BA) team at their headquarters in Richmond. The CDLIS BA team toured the customer service center, CDLIS/PDPS helpdesk, and printing facilities, and discussed Virginia's Commercial Driver Licensing (CDL) program.

Looking for Members to Lend Their Expertise
AAMVA is looking for additional jurisdiction members to lend their expertise on our three standing committees. Serving on a committee is an ideal way to influence policy, develop best practices and network with your peers. Visit aamva.org to see the list of specific positions that we are seeking jurisdiction members to fill on our Driver, Law Enforcement, and Vehicle standing committees. If a region is indicated, the applicant chosen will be from that region. If the region is shown as "Any Region," the applicant chosen could be from any of AAMVA's regions. We attempt to maintain jurisdictional and regional balance on all committees and working groups. If you would like to serve on one of our committees, please complete the Committee Member Application Form. All applications must be received by June 15, 2019. Even if you submitted an application previously, please resubmit. If you have questions, please contact Dianne Graham via email (committees@aamva.org) or phone (703.522.4200). Click here for more information.

This Week's Webinars
CSTIMS June 2019 Release and decommissioning of CSTIMS Enhanced Application
June 5, 2019, 2:00 – 3:00 pm (EDT)
The Webinar will provide an overview of the CSTIMS June 2019 Release (Enhancement to Reports, User Administration, User Preference, CLP Validity and Security) and decommissioning of the CSTIMS Enhanced Application.
Note: This webinar is for AAMVA jurisdiction and federal members only.

JURISDICTION NEWS

Service Alberta Enacts Section 75.1 of the Operator Licencing and Vehicle Control Regulation, Alta Regulation 320/2002
The Registrar of Motor Vehicle Services (Service Alberta) has enacted section 75.1 of the Operator Licencing and Vehicle Control Regulation, Alta Regulation 320/2002. This is to assist residents under evacuation order from the communities of High Level, parts of Mackenzie County south of High Level and Dene Tha’ First Nation communities of Bushe River, Meander River and Chateh who may encounter difficulties renewing their driver's licence, identification card and vehicle registration(s). Evacuees with expiring driver's licences and/or vehicle registrations have until July 31, 2019 to renew these documents. Read more here.

FLHSMV Releases Modified Driver License and ID Card with Enhanced Security Features (Florida)
Starting in May 2019, the Florida Department of Highway Safety and Motor Vehicles began releasing a modified Florida driver license and ID card with enhanced security features to customers. Modifications include the removal of the magnetic strip on the back of the credential, the addition of a tactile security feature, and the inclusion of a new photo design.

feature and changes to the data and data layout. By the end of August 2019, the modified credential will be available at all service centers throughout Florida and online. 'The release of this new credential is part of a continued effort to maintain the highest level of security for all Floridians,' said Terry L. Rhodes, Executive Director of the FLHSMV. 'In cooperation with law enforcement and our stakeholders, we are committed to enhancing security, preventing fraud and best serving our customers.' Read more here.

Georgia Motor Vehicle Division Announces New Online Services Portal is Up and Running

Over Memorial Day weekend, the Georgia Department of Revenue (DOR) installed a new state-of-the-art system, Georgia Driver Record and Integrated Vehicle Enterprise System (DRIVES) to upgrade and modernize the vehicle registration and titling functions. Now that the statewide system upgrade has been successfully completed, the Georgia Motor Vehicle Division has launched a new web services portal to enable Georgia residents to complete more vehicle services online. As of today, customers are now able to complete a host of services online including pre-applying for title and registration, completing online renewals faster, and changing a registration address. ITD Launches New Online Services Website for Many Division of Motor Vehicles Transactions (Idaho)

Idahoans needing to renew their driver's license, identification card or vehicle license plate can now 'skip the line by going online' through a new website, Drive Idaho. 'Our new online services page, Drive Idaho, brings all of the new and existing DMV’s online services into one, easy-to-navigate page,' Division of Motor Vehicles Administrator Alberto Gonzalez said. 'Qualified Idahoans can now skip the line at the county sheriffs’ and assessors’ offices by going online for DMV services.' Idahoans cannot apply for the Star Card, Idaho's REAL ID online. Read more here.

Appointment System Reduces DMV Wait Times (Nebraska)

If you need to take a (Class O) car drive test at the DMV, and want to be served quickly, then the online appointment service is the choice for you. Launched at the start of the year, 3,495 customers have taken advantage of the new option. Using the service means customers do not need to wait in line for a drive test appointment. Applicants just need to arrive at the DMV 15 minutes before their scheduled time and they can take their drive test right away. The service is available in the Lincoln and Omaha metro area offices, and is available to customers who have already passed the written portion of their test. 'We are excited the online appointment system for car drive tests has eliminated wait times for many of our customers, allowing them to choose an appointment which fits their schedule,’ said Rhonda Lahm, Director of the Department of Motor Vehicles. Saturation Enforcement for Commercial Motor Vehicles, Canterbury, Epping, Lebanon, Shelburne, and Windham, New Hampshire

On May 28, 2019 members of New Hampshire State Police – Troop G conducted commercial motor vehicle enforcement in the towns of Canterbury, Epping, Lebanon, Shelburne, and Windham, New Hampshire. In order to reduce traffic collisions involving commercial motor vehicles, Troopers from Troop G specifically focused their enforcement efforts on ensuring that commercial motor vehicles were in safe mechanical operating condition, drivers were compliant with hours of service, and drivers had obtained proper licensing credentials...During the daylong event, Troopers inspected 129 commercial motor vehicles and discovered 218 violations. Of those violations, 48 were so severe that they created a condition
International Roadcheck Set for June 4-6 with Emphasis on Steering and Suspension (Vermont)

The Commercial Vehicle Safety Alliance's (CVSA) International Roadcheck will take place on June 4-6. Over that 72-hour period, commercial motor vehicle inspectors in jurisdictions throughout North America will conduct inspections on commercial motor vehicles and drivers. Each year, International Roadcheck places special emphasis on a category of violations. This year's focus is steering and suspension systems. While checking vehicle compliance is always part of the North American Standard Inspection Program, CVSA is highlighting steering components and suspension systems this year as a reminder of their importance to highway safety. FEDERAL NEWS

New REAL ID Guidance from Department of Defense

The U.S. Department of Defense (DoD) recently finalized an update to its DoD-wide installation security policy and is no longer accepting noncompliant marked cards across all of its facilities and installations. DoD will continue to accept state-issued noncompliant unmarked "legacy" cards until the October 1, 2020 deadline. More information is available on the REAL ID FAQ website.

FMCSA Corrects Automated Driving System Comment Deadline

The Federal Motor Carrier Safety Administration (FMCSA) is correcting its advanced notice of proposed rulemaking (ANPRM) that was published in the Federal Register on May 28, 2019. The ANPRM requested comment on Federal Motor Carrier Safety Regulations (FMCSRs) that may need to be amended, revised, or eliminated to facilitate the safe introduction of automated driving systems (ADS) equipped commercial motor vehicles onto public roadways. The correction now provides that comments must be received by July 29, 2019. Members submitting comments are encouraged to copy governmentaffairs@aamva.org. Read more here.

NHTSA Releases a 5-year Motorcycle Safety Plan

Per vehicle miles traveled, motorcyclists are about 28 times more likely than people in passenger cars to die in a traffic crash. Motorcyclists continue to be overrepresented in traffic-related fatalities, accounting for 14% of all traffic-related fatalities, while representing only 3% of the entire registered motor vehicle fleet. As part of the National Highway Traffic Safety Administration's (NHTSA) dedication to promoting safe behaviors of motorcyclists and other motorists, NHTSA has released a 5-year Motorcycle Safety Plan. Read more here.

U.S. DOT to Hold Human Trafficking Meeting

The United States Department of Transportation (DOT) has announced a public meeting of the Department of Transportation’s Advisory Committee on Human Trafficking. This meeting will be held via teleconference on June 17, 2019 from 2:00 p.m. to 5:00 p.m. EDT. The Advisory Committee’s website is available at https://www.transportation.gov/stophumantrafficking/acht. The Advisory Committee was created in accordance with Section 5 of the Combating Human Trafficking in Commercial Vehicles Act (P.L. 115-99) to make recommendations to the Secretary of Transportation on actions the Department can take to help combat human trafficking and to develop recommended best practices for States and local transportation stakeholders in combatting human trafficking.
Motorcycle Safety Foundation and Virginia Tech Transportation Institute to Share Naturalistic Study with Autonomous Vehicle Developers

To help ensure that two-wheelers remain a regular part of the traffic mix, the Motorcycle Safety Foundation and Virginia Tech Transportation Institute will share valuable data from motorcyclist behavior studies with autonomous vehicle developers. Sharing the data will help ensure that motorcyclists are included in AV research programs and will help preserve on-highway motorcycling. Data from the MSF 100 Motorcyclists Naturalistic Study will be available to any AV-related company, from vehicle manufacturers to tech companies, through VTTI. In exchange for providing access to the MSF 100, VTTI will ensure that the MSF can use the datasets from AV-related research for its own analysis and published works. Read more here.

Ignition Interlocks Have Stopped More Than 3 Million Drunk Driving Attempts in 12 Years (MADD)

Mothers Against Drunk Driving (MADD) announced that in-car breathalyzers have stopped a driver who is drunk from starting his or her vehicle over 3 million times since 2006, when MADD launched the Campaign to Eliminate Drunk Driving and began advocating for ignition interlocks for every drunk driver. The data, collected by MADD from 11 ignition interlock manufacturers, was unveiled during a presentation by Frank Harris, MADD’s Director of State Government Affairs, at the Association of Ignition Interlock Program Administrators’ (AIIPA) 2019 Annual Conference in San Diego.
