Traffic Incident Management

Traffic Incidents

Traffic incidents are just about anything that happens on or near a roadway that affects traffic.

- › They create unsafe situations and put lives at risk, and cause delays.
- › They compromise our safety, and cost us time and money everyday.

What You Need to Know

- 1** **Move your car to a safe place** – out of the travel lanes – if you are involved in an incident, and there are no injuries.
- 2** When you see flashing lights ahead of you, you need to **slow down and/or move over.** You can be ticketed for failing to do this!
- 3** **Help keep your loved ones safe and avoid a ticket.** Tell your friends and family about these laws.

Traffic Incident Managers Can't Do It Alone!

Pop Quiz!

Match the numbers on the following slide to these facts!

Do you know?

Number of law enforcement officers killed being struck by a vehicle since 2000

Gallons of fuel wasted by Americans idling in incident-related traffic

Number of minutes added to traffic delay for every minute a lane is blocked due to a traffic incident

Number of hours the average American commuter spends idling in traffic every year

Percent jump in costs associated with traffic incidents over past 4 years.

Number of responders in harm's way at an incident scene on any given day

Average number of responders (police, fire, EMS, tow truck drivers, and transportation/maintenance workers) injured every year responding to a traffic incident

20,000

4

38,000

24

160+

2.8B

Answer Key

Fact	Answers
160+	Number of law enforcement officers killed being struck by a vehicle since 2000
2.8B	Gallons of fuel wasted annually by Americans idling in incident-related traffic
4+	Number of minutes added to traffic delay for every minute a lane is blocked due to a traffic indent
36	Number of hours the average American commuter spends idling in traffic every year
85	Percent jump in costs associated with traffic incidents over past 4 years.
38,000	Number of responders in harm's way at an incident scene in a 24-hour period
20,000	Average number of responders (police, fire, EMS, tow truck drivers, and transportation/maintenance workers) injured every year responding to a traffic incident

So what is a “traffic incident” anyway?

Who Responds to Traffic Incidents?

Traffic Incident Management Helps Everyone

- **Traffic Incident Management**
Responders work together as a team to respond safely and quickly.
 - › Firefighters
 - › Law enforcement officers
 - › EMS responders
 - › Transportation / Safety Service Patrols
 - › Maintenance crews
 - › Towing and recovery
 - › 911/Dispatch

Pop Quiz!

- What's a traffic incident?
- What should you do with your vehicle—if you safely can—if you are in a traffic incident?
- What should you do when you see flashing lights on a roadway?
- What should you do when you leave this room today?

TIM Public Outreach: Brainstorming

You can help spread the word in your community using the TIM Public Outreach Toolkit Products. They are freely available and customizable:

http://www.ops.fhwa.dot.gov/eto_tim_pse/timtoolbox/

The collage features several key products from the TIM Public Outreach Toolkit:

- Memorandum:** A document titled "Free Tools For Boosting Traffic Safety in Your Community" from the Federal Highway Office of Transportation Operations Director. It discusses the importance of TIM and provides instructions on how to use the toolkit products.
- Traffic Incident Management Brochure:** A brochure with the headline "Traffic Incident Management: safe, reliable, travel smooth, fast response, timely, cost-saving." It includes a graphic showing the impact of traffic incidents on travel time and cost.
- Traffic Incidents... Brochure:** A brochure titled "Traffic Incidents... jeopardize the safety of motorists and responders" that lists statistics such as "Every minute a lane is blocked, creates 4 extra minutes of delay" and "Americans burn more than 2.8 billion gallons every year stuck in incident-related traffic."
- Traffic Incident Management Poster:** A poster with the headline "Traffic Incident Management: Because Time Matters" and a graphic showing the impact of traffic incidents on travel time and cost.
- Traffic Incident Management Brochure (Right):** A brochure with the headline "Traffic incidents create unsafe situations, put lives at risk, and cause delays. You can help:" followed by three numbered steps: 1. Move your car to a safe place - out of the travel lanes; 2. When you see flashing lights ahead of you, you need to slow down and/or move over; 3. Help keep your loved ones safe and avoid a ticket.
- Traffic Incident Management Brochure (Bottom Right):** A brochure with the headline "Traffic incidents create unsafe situations, put lives at risk, and cause delays. You can help:" followed by three numbered steps: 1. Move your car to a safe place - out of the travel lanes; 2. When you see flashing lights ahead of you, you need to slow down and/or move over; 3. Help keep your loved ones safe and avoid a ticket.
