

AAMVA's The Week in Review for June 17, 2013

Winners of the Martha Irwin Award for Lifetime Achievement in Highway Safety

There were a record number of nominations submitted for Martha Irwin Award for Lifetime Achievement in Highway Safety consideration this year. Because the nominees were nearly evenly split between representatives of law enforcement and non-law enforcement, it was decided to create two categories and recognize a winner from each category. This is a model we anticipate repeating into the future. We are pleased to announce the winners of the 2013 Martha Irwin Award for Lifetime Achievement in Highway Safety are:

Captain Lenny Casper, New York State Police; and

Mr. John Kuo, Administrator, Maryland Motor Vehicle Administration

There were a total of nine nominees, all of whom were deserving, but Lenny and John were selected by a panel of ten judges who had the unenviable task of making a very difficult decision. Lenny and John will be recognized and will receive this award at the AAMVA Annual International Conference in Scottsdale, Arizona. Congratulations Lenny and John!

Motorcycle and Scooter Ride to Work Day Today, June 17th

The 22nd annual Ride To Work demonstration can more than triple the number of riders on some roads. Most motorcycle and scooter clubs and organizations encourage riders to commute by scooter or cycle on this day. Riders seek employer recognition and support for this form of transportation and increased public and government awareness of the societally positive benefits of utility riding. Adding motorcycles and scooters helps traffic flow, according to Ride to Work, a non-profit advocacy organization. For more information, visit [here](#).
