Vehicle Standing Committee
Status Report

March 12, 2014
Spring Workshop and Law Institute
St. Louis, Missouri

Scott Clapper, Chief of Vehicle Services
Delaware Division of Motor Vehicles
Mission:
To identify, develop, and champion vehicle safety and consumer protection initiatives, and promote reasonable and uniform best practices and laws throughout member jurisdictions.

Goals:
• Promote synergy among all disciplines
• Enhance vehicle safety
• Enhance customer service and improve efficiencies through the use of best practices and emerging technologies
• Reduce fraud
• Improve communication
• Recommend, develop, and promote training
• Promote uniformity

Vehicle Standing Committee
Status Report

Unconventional Vehicles Working Group

Deliverable #1: Titling and Registration of New Motorcycles
Completed 2007 - Posted on AAMVA website

Deliverable #2: Titling and Registration of Mini-Trucks
Completed 2011 - Posted on AAMVA website

Deliverable #3: Title and Registration of Rebuilt and Specially Constructed Vehicles
Completed 2012 - Posted on AAMVA website

Deliverable #4: Title and Registration of Reconstructed and Replica Vehicles
Completed December 2013
Posted on AAMVA website

Will be discussed during the best practices session this afternoon
Three Wheel Vehicle Working Group

- Created in 2010
- Funded by AAMVA Committee Budget

Charter:
Develop strategies and best practices to assist member jurisdictions in dealing with three wheel vehicles, existing and emerging, in a uniform and consistent manner.
Vehicle Standing Committee
Status Report

Three Wheel Vehicle Working Group

Deliverable: Title and Registration of Three Wheel Vehicles

Completed October 2013

Posted on AAMVA website

Will also be discussed in the best practices session this afternoon
NMVTIS Business Rules Working Group

Established July 2012

Charter: Identify and address business issues relating to NMVTIS on an on-going, as needed basis.

- The working group is considering over twenty five business issues.
- Developing recommendations and best practices that will resolve many of these complex issues.
NMVTIS Business Rules Working Group

Several Best Practices have been identified.

Expecting to publish a Best Practices guide this month.

It is anticipated that additional issues will be referred to the working group in the future.

This guide will be updated on an on-going basis.

Learn more about the best practices tomorrow morning in the NMVTIS session.
2010 and E-Title Working Group was established to develop a plan figuring out how to establish an electric title program.

2011 decided to create an E-Title Task Force to develop an E-Title Proof-of-Concept. The Task Force includes the E-Title Working Group and several other stakeholders including manufacturers, dealers, lien holders, auctions, fleet owners, insurance industry, NICB and federal partners from DOT and DOJ.
Vehicle Standing Committee
Status Report

Timeline

➤ In May 2012 the Task Force developed a Proof of Concept that demonstrates the viability of an electronic titling process.

➤ Winter 2012 - Fall 2013 - Defining Requirements and participating states were preparing to pilot the Proof of Concept.

➤ Fall 2013 Completed Proof of Concept. Focus moved to developing an e-odometer solution to be presented to NHTSA for their consideration to include in rule making.

Status Report

E-Titling Working Group

E-Odometer Scope

• The case where both the buyer and seller have an electronic signature.
  – This would cover any two parties, but in the near future, this relates to vehicle sales between dealers and auctions.

• The case where the seller has an e-signature but the buyer does not.
  – This would pertain to any two parties, but in the near future, this relates to vehicle sales where the seller is a dealer and a retail buyer.

• Can AAMVA’s electronic driver license verification service (DLDV) be used to satisfy the TIMA requirements?

• The case where neither party has an e-signature
  – Is there technology that is readily available today that can be used to make TIMA-compliant electronic odometer disclosures.

Learn more about in the “It is all about the E Session this afternoon”
Autonomous Vehicle Information Sharing Group

- Vehicles will be available in the future
- Assist jurisdictions in understanding and preparing for these vehicles
- Developed an Information Library on AAMVA 'S website

Hear more about the group in the Autonomous Vehicle Session tomorrow.
License Plate Standards Task Force

- To develop an AAMVA License Plate Standard for AAMVA member jurisdictions to use for the design and manufacture of their license plates.

- It is the intent of the Task Force to develop standards that improve accurate plate identification both by humans and technology.

- It is not the intent of the Task Force to develop standards that are so restrictive that they jeopardize a jurisdiction’s ability to design plates and collective revenue.

- Anticipate completion in 2015
Vehicle Standing Committee

Status Report

Future Working Groups
Summary

• To identify, develop, and champion vehicle safety and consumer protection initiatives, and promote reasonable and uniform best practices and laws throughout member jurisdictions.

• 2014 Deliverables:
  – NMVTIS Business Rules Working Group to publish a Best Practices guide
  – e-title Working Group to deliver an e-odometer solution
  – Autonomous Vehicle Information Sharing Group to share information and establish a website library
  – License Plate Standards Task Force begin development of standards
