NMVTIS Business Rules Working Group meets in San Francisco, California

The NMVTIS Working Group met in San Francisco, California on April 30 & May 1, 2014 to address operational and technical issues. In this meeting the working group focused on outstanding issues submitted by jurisdictions concerning operation of NMVTIS. They received updates regarding NMVTIS from AAMVA staff, continued to identify and develop NMVTIS best practices for registration and title program managers and developed plans to review the NMVTIS State Online Procedures Manual. Check out the newly-released [NMVTIS Best Practices for Title and Registration Program Managers in DMVs](#).

Still Ahead: NMVTIS Best Practice Webinar Part 2

[NMVTIS Best Practices for Title and Registration Program Managers - Part 2 of a 2 Part Series](#)

Wednesday, May 14, 2014, 2:00 - 3:00 PM (EST)

Part two of this two-part series, this webinar will cover the findings of AAMVA's NMVTIS Business Rules Working Group. Learn about their research and how these best practices for title and registration program managers will ensure that NMVTIS works hand in hand with their title program, along with ensuring jurisdictions are developing consistent policies and practices. Included in these best practices are reporting and modifying brands, issuing duplicate titles, managing VIN corrections,

factoring in information from NMVTIS when making a decision to issue a title, and much more.

Standing Committee Vacancies

Serving on the Driver, Vehicle, or Law Enforcement Committees or on a working group is an ideal way to influence policy, develop best practices, and network with your peers. Subject matter experts from driver, vehicle, and motor carrier services disciplines can include financial responsibility, licensing, testing, and registration, titling, or inspection, among other experience and positions. Vacancies on the three standing committees – Driver, Vehicle, and Law Enforcement -- occur because of resignations and end of service terms. We have several vacancies on each of the three standing committees. See the positions which will be vacant on our web site at <http://www.aamva.org/Committees-and-Working-Groups/>. If you are interested in applying for membership, please download the Committee Member Application. Applications MUST be received by May 15, 2014 to be considered for October start date.

CDLIS 5.2 & 5.3 Production Migration

New Hampshire is the most recent CDLIS site to implement CDLIS 5.2 in production, bringing the total number of sites in production to 50 (including 48 jurisdictions, the Federal Convictions and Withdrawals Database (the 'MX' node), and the FMCSA Site (the 'FH' node)). In addition, several other states are actively testing with AAMVA. For details please refer to <http://www.aamva.org/CDLIS-Mod-Updates/>.

In addition, AAMVA would like to congratulate Idaho for being the most recent state to implement CDLIS 5.3.2 changes in production, bringing the total number of states in production to 5. States that are at a version older than CDLIS 5.3.2, should be able to conduct business with Idaho seamlessly. Please note that this is for information purposes only and jurisdictions do not have to make any changes at their end to accept Idaho as a 5.3.2 state. For details please refer to <http://www.aamva.org/CDLIS-53-Testing-Status/>.

Jurisdiction-Only Webinar: Report Out of State Test Results (ROOSTR) Information Session

Secretary Foxx Sends Transportation Bill to Congress

U.S. Transportation Secretary Anthony Foxx unveiled a long-term transportation bill he is sending to Congress for consideration as the House and Senate face looming deadlines to avoid the economic uncertainty and job loss that would ensue if the Highway Trust Fund runs out of money this summer. The GROW AMERICA Act reflects President Obama's vision for a four-year surface transportation reauthorization bill that would create millions of jobs and lay the foundation for long-term competitiveness, rebuilding crumbling roads and bridges while providing much-needed certainty for local

and state governments and addressing the country's future needs. For more information, see dot.gov.

CVSA Ushers in Global Youth Traffic Safety Month by Teaching Youth Safety Leaders Techniques for Safe Driving Around Commercial Vehicles

In honor of Global Youth Traffic Safety Month, the Commercial Vehicle Safety Alliance (CVSA) joined with experts from the Federal Motor Carrier Safety Administration (FMCSA), National Highway Traffic Safety Administration, National Transportation Safety Board, Safe Kids Worldwide, Snap to Live and other safety groups on May 1, 2014, in Washington, D.C., in recognition of the global youth traffic safety movement and as part of the U.S. kickoff for the month. As part of the kickoff event, over 100 teens participated in the hands-on "Teens and Trucks" initiative hosted by CVSA. Through simulations and demonstrations, teens learned techniques for safe and cautious driving around large trucks and buses. For more information, visit cvsa.org.
