

Dear CDLIS and State-to-State (S2S) Participants:

Nebraska (NE) and Indiana (IN) will be the next states to adopt S2S Driver History Record (DHR) functionality following their implementation during the weekend of January 27, 2024. Please be aware that regular CDLIS/S2S Central Site availability between the evening of Saturday, January 27, 2024, and early morning of Monday, January 29, 2024, may be affected. More specifically, there may be periods during which the Central Site is in inquiry-only mode, and there may be periods during which the Central Site is unavailable (over and above the regularly scheduled maintenance window of 2:00 AM to 5:00 AM ET on Sunday). Exact details will be shared as soon as they are available.

The Central Site should be fully operational again on Monday, January 29, 2024, 5:00 AM ET. All other systems will be up and running during their usual available hours.

Status and History requests between states should be unaffected by the work at the Central Site, except for inquiries directed to NE and IN. Information about NE and IN's availability will be shared in future communications.

Please refer to the [S2S Implementation Calendar](#) available under State-to-State (S2S) Verification Service at aamva.org for the list of states joining S2S program and/or S2S DHR program in the upcoming months.

Please note that states are encouraged to avoid these weekends for performing maintenance or deployment activities that require the Central Site to be available. Please contact AAMVA if such activities are unavoidable.

If you have any questions, please contact the AAMVA Operations Help Desk at helpdesk@aamva.org.
