Description of Federal Aid Program

The American Association of Motor Vehicle Administrators (AAMVA) is a nonprofit organization representing officials in all 69 states, provinces and territories engaged in the administration and enforcement of driver and motor vehicle laws in the United States and Canada. Through its membership, the association develops model programs and serves as an information clearinghouse and international spokesperson for members' interests. Our vision: Safe Drivers, Safe Vehicles, Secure Identities, Saving Lives.

The Association's mission is to support North American motor vehicle and law enforcement agencies and as such it provides a host of solutions and services for jurisdictional representatives tasked with administering and enforcing motor vehicle laws. These solutions and services, such as business process best practices, educational and training events, and technology platforms are developed under the direction of the membership. It works to ensure that when jurisdictions take actions to conform with federal mandates, they have national solutions at their disposal should they choose to use them (e.g., CDLIS, State to State and CSTIMS to name a few). AAMVA provides its membership with a diverse set of tools that support members' goals to keep unsafe drivers off the roads, facilitate reciprocity between individual members, and strengthen the motor vehicle community's shared commitment in saving lives.

AAMVA participates in FMCSA's grant program(s) to develop national projects that support States in their compliance efforts and that will improve the national CDL program.

Training

AAMVA has assigned overall responsibility for Title VI and nondiscrimination program compliance to the Title VI Program Coordinator. Responsibility for program compliance regarding FMCSA program activities and services specific to each grant award are the responsibility of the project manager responsible for each grant award. AAMVA requires project managers responsible for each grant award to review the FMCSA-related responsibilities with the project staff and the Title VI Program Coordinator. AAMVA's staff and Title VI Program Coordinator shall provide a copy of the FMCSA Basic Title VI Program Training to responsible staff. Training is conducted annually by the Program Coordinator using the Title VI Program Policy Statement and other program information, and routine training is conducted using company email, newsletters, and other communications methods. The training provides comprehensive information on Title VI Program requirements and its application to specific programs or operations; assistance on the identification of Title VI Program-related issues; and an overview of the complaint process.

All persons with responsibility under the program, or receiving training under the program, will sign an acknowledgement indicating that they understand the AAMVA Title VI Program and have received appropriate training.

Access to Records

AAMVA is responsible for ensuring all records relating to the effective implementation of Title VI Program requirements are available for review by FMCSA.
