Patty Morneault
Deputy Secretary of State

Linda Grant
Director of Driver License Services

January 4, 2019

When we think of an exceptional Driver License Examiner, certain characteristics come to mind; reliability, a person of integrity, exuding professionalism when performing their duties and exceptional interpersonal relation skills. The Maine Bureau of Motor Vehicles nominee as Examiner of the Year is an individual blessed with an abundance of all these values. As an example of reliability, this Examiner since joining our ranks in the spring of 2006 has not once called out of work unexpectedly! This individual has consistently received accolades from customers, sponsors, coworkers, branch personnel, driver education providers and others that they come in contact.

When approached to take on extra responsibilities, this Examiner enthusiastically steps forward to accomplish the task established! This willingness has resulted in the added responsibilities of routinely conducting special medical evaluations, juvenile provisional examinations and school/work restricted license testing. These reviews are typically facilitated in and around their regular duties. All duties are delivered with the best of attitudes, timeliness and with nary a complaint.

While we could elicit more commentary and examples in support of this nominee, the Maine Bureau of Motor Vehicles proudly names as its 2018 Examiner of the Year, Brian Morris.

Congratulations Brian on this well-deserved recognition! Your commitment and pride in delivering public service is a positive role model and we are proud of your efforts.

Sincerely,

Larry Boivin
Driver License Examiner
Bureau of Motor Vehicles

Chief
Maine
