Motor Vehicle Administrators

# Agenda

- Background
- Project Status
- Pilot Approach
- Pilot Participants
- Jurisdiction Participation
- e-ID
- Next Steps
- Contact Information

American Association of  
Motor Vehicle Administrators

# Background

- Provide non-AAMVA entities with real-time capability to verify DL/ID credentials with data from the issuing Jurisdiction
- Aims to meet AAMVA member goals of curbing identity theft and preventing documentation fraud
- Targets three goals from the AAMVA Strategic Plan
- AAMVA funded over eight months

American Association of  
Motor Vehicle Administrators

# Project Status

## **DLDV Pre-Pilot Phase**

- Initial participation includes one End-User and three Jurisdictions
- Development, integration, and testing of verification system complete
- Testing complete with Jurisdictions
- Testing with End-User in process
- Agreements in place with End-User and Jurisdictions
  - ✓ Jurisdiction Services Agreement
  - ✓ End-User Services Agreement
  - ✓ Interconnection Security Agreement
  - ✓ Other

**Pilot-Phase** to follow though September

American Association of  
Motor Vehicle Administrators

# Pilot Approach

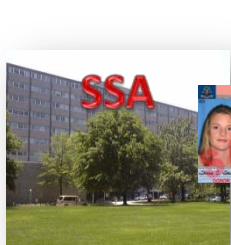

- Working groups organized from End-Users and Jurisdictions

# Pilot Approach (cont'd)

- Returns "Match"/"No-match" indicator for each attribute on the request
  - Required Attributes
    - ✓ Last Name
    - ✓ Date of Birth
    - ✓ License/Document Number
    - ✓ State Code
  - Optional Attributes (depending on availability from Jurisdiction)
    - ✓ First Name, Document Type (License/Permit/ID Card), Address, Expiration Date, Gender, Height Weight, Eye Color and Middle Name

American Association of  
Motor Vehicle Administrators

# Pilot Participants

- Pilot Participants
  - End-User
    - ✓ Gateway/aggregator for financial institutions
    - ✓ Proof of Concept with DHS in parallel for open market use
  - Jurisdictions
    - ✓ Florida, Iowa and Mississippi

American Association of  
Motor Vehicle Administrators

# Jurisdiction Participation

- Meets jurisdiction goals
  - Curb identity theft
  - Prevent documentation fraud
  - Protect integrity of credential
- Streamlined solution for end-users
- Limited effort to participate
  - Leverages the AAMVA Problem Driver Pointer System (PDPS)
- Financial benefits
  - End-user fees shared with jurisdictions in multiple formats
- Interested parties (financial, retail, and government)

American Association of  
Motor Vehicle Administrators

# e-ID

- Expand scope of DLDV system to support e-ID initiatives sponsored by the Department of Commerce (DOC) under the National Strategy for Trusted Identities in Cyberspace (NSTIC)
- DOC received 186 abbreviated proposals in response to the opportunity
  - AAMVA and partners were selected as one of twenty-seven finalists to submit a full proposal
- NSTIC anticipates funding five to eight projects for up to two years
- If awarded, AAMVA will serve as prime, with AT&T, BioSig, Commonwealth of Virginia, CA Technologies, and Microsoft as subcontractors

American Association of  
Motor Vehicle Administrators

# Next Steps

- Initiate Pilot Phase
- Recruit additional End-Users and Jurisdictions for pilot and production
  - Targets
    - ✓ FY 2013 – 1 End-User and 7 Jurisdictions
    - ✓ FY 2014 – 4 End-Users and 22 Jurisdictions
- Finalize End-User fees and Jurisdiction revenue share
- Finalize options for revenue share distribution

American Association of  
Motor Vehicle Administrators
