- Questions... quickly

E-Verify...

What is E-Verify?

E-Verify is a free, easy-to-use, web-based system operated by the Department of Homeland Security (DHS).

What is E-Verify?

It allows participating employers to electronically verify the employment eligibility of their employees.

What is E-Verify?

What is E-Verify?

300,000+

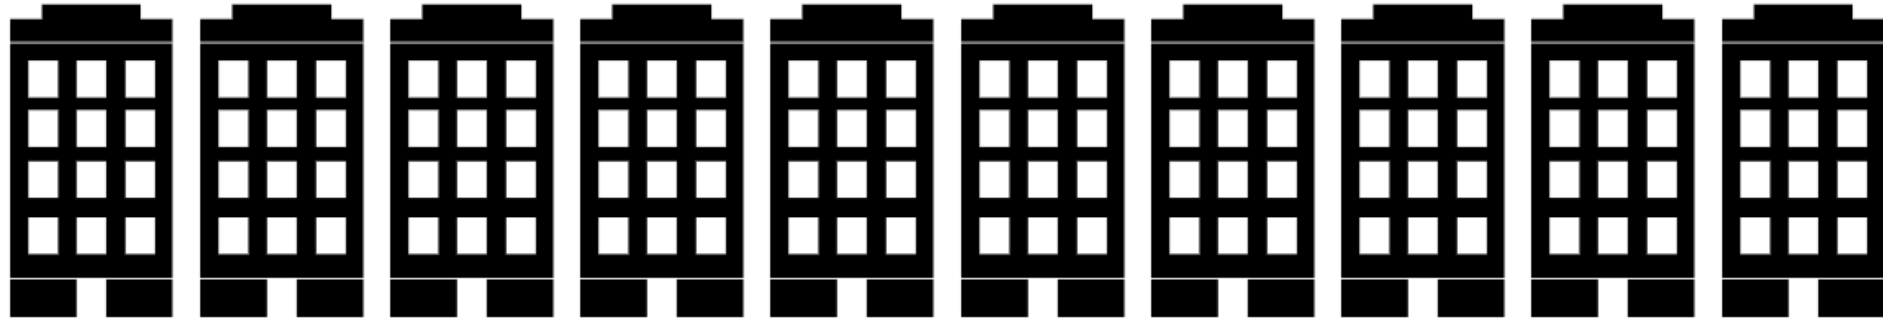

What is E-Verify?

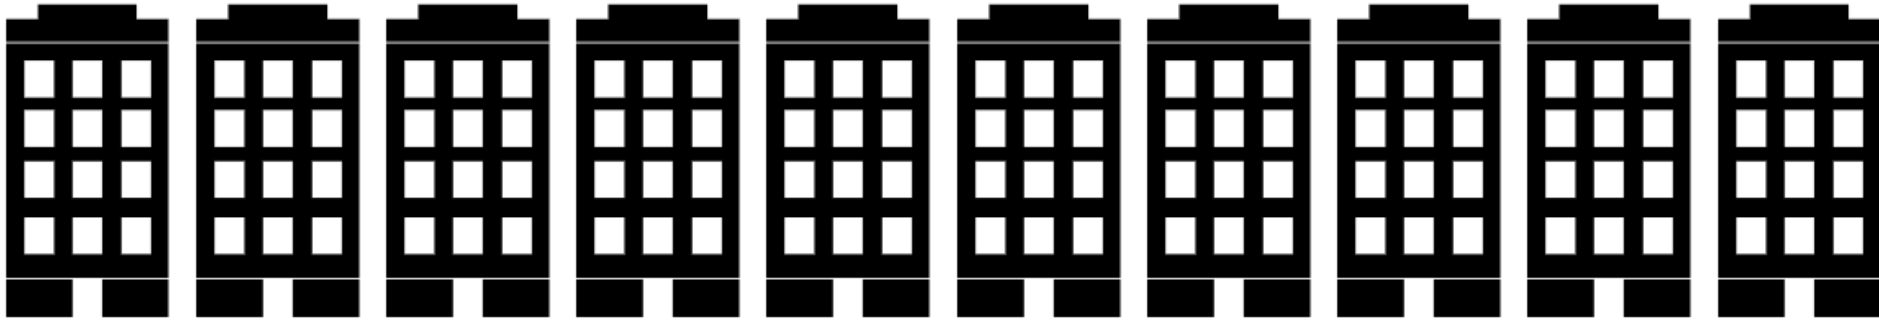

300,000+

The number of employers using
E-Verify

What is E-Verify?

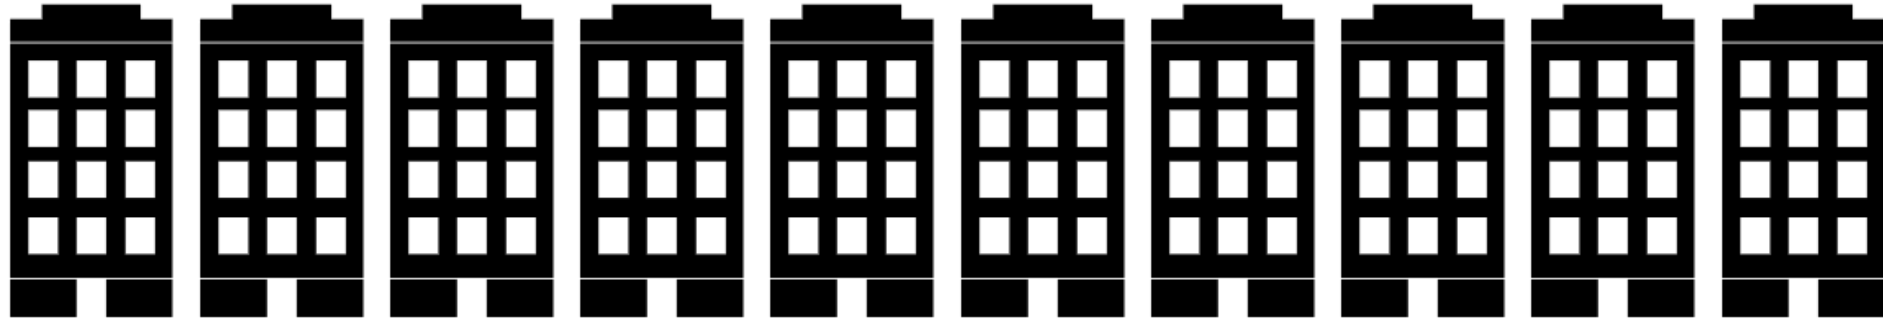

What is E-Verify?

1,000,000+

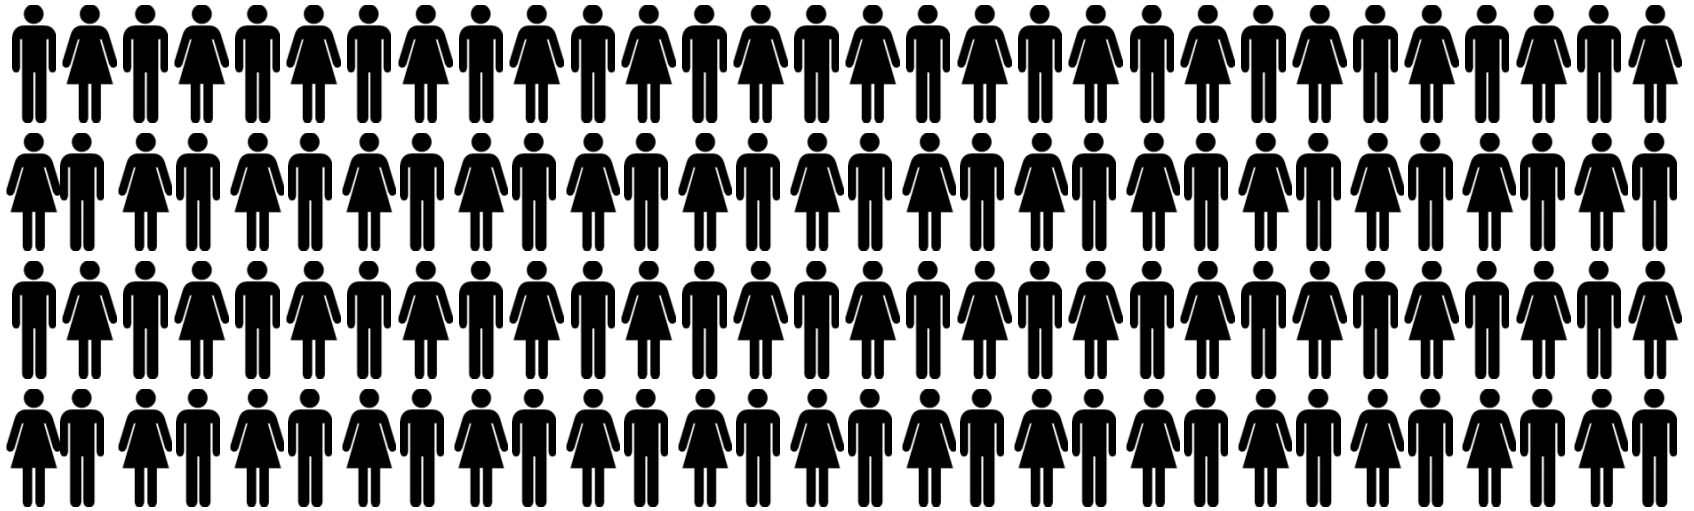

What is E-Verify?

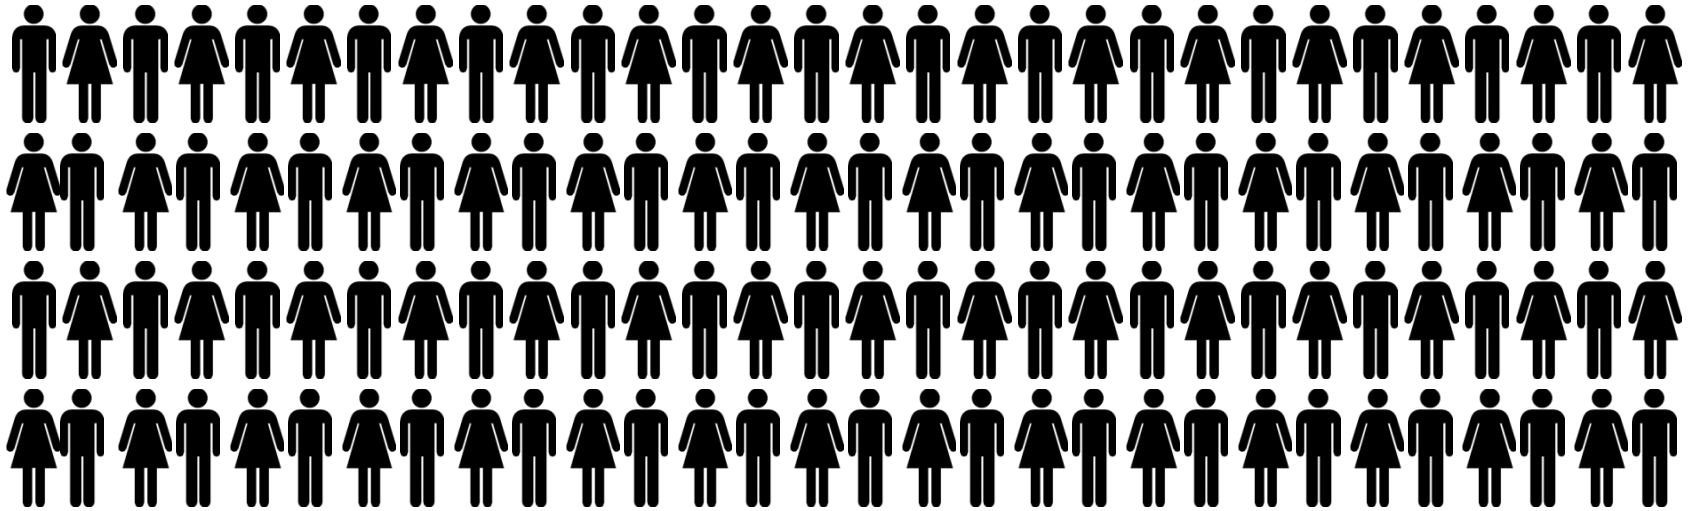

1,000,000+

The number of worksites where
E-Verify is used

What is E-Verify?

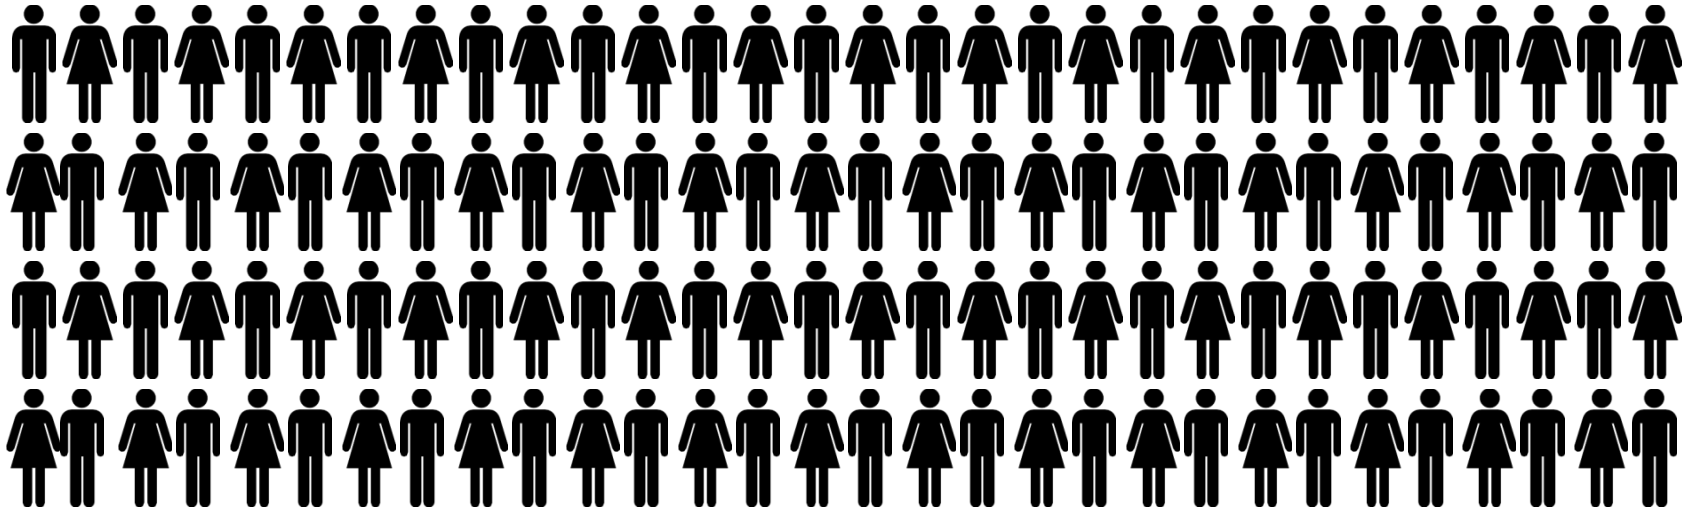

What is E-Verify?

17,000,000+

What is E-Verify?

17,000,000+

The number of FY 2011
E-Verify queries

What is E-Verify?

Over 98 percent of all employees are
IMMEDIATELY found authorized to work.

RIDE...

What is RIDE?

RIDE stands for Records and Information from DMVs for E-Verify.

What is RIDE?

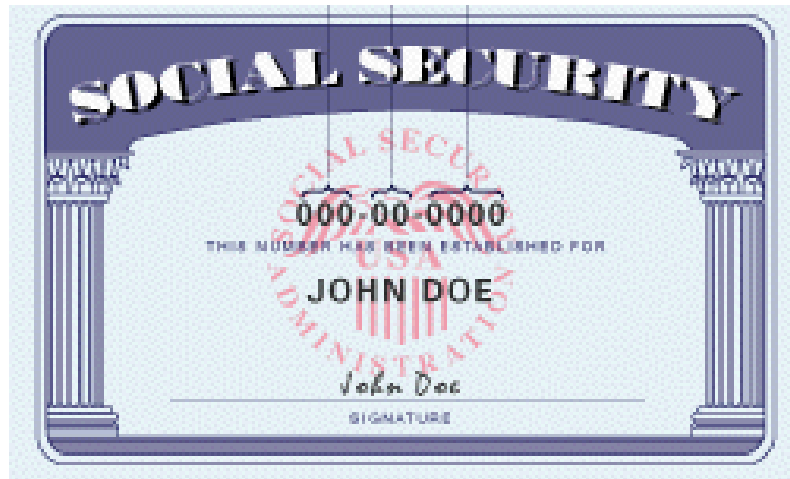

It's a mouthful , we know

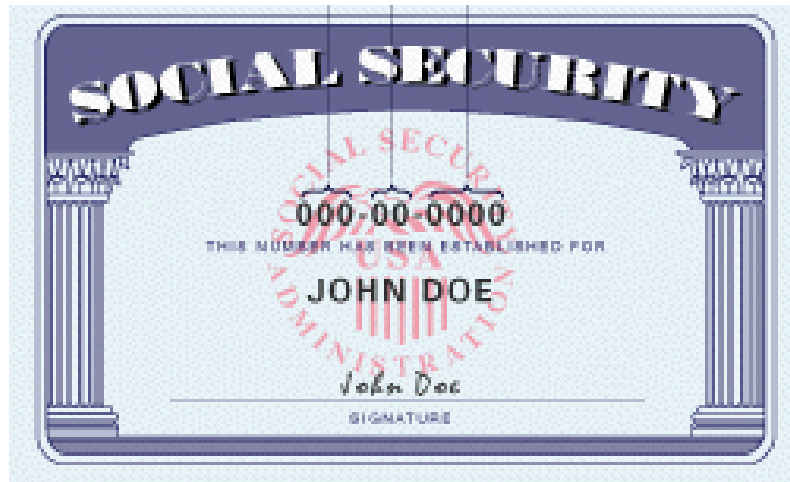

What is RIDE?

RIDE allows employers to check drivers' licenses and state IDs against jurisdiction records.

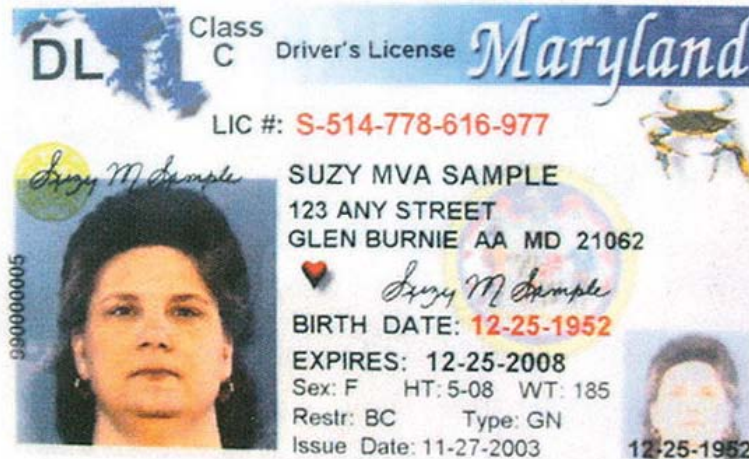

What is RIDE?

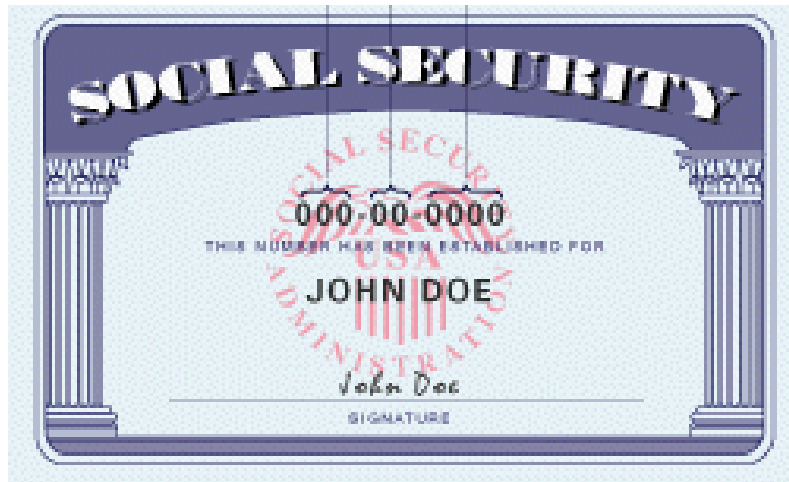

Over 80 percent of employees use a driver's license or state ID to establish identity on the Form I-9.

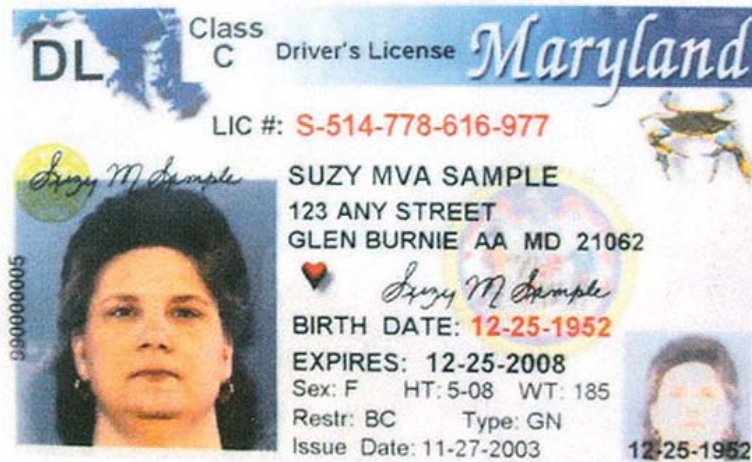

+

+

Two Part verification

What is RIDE?

This two-part verification gives employers a greater assurance that their new employees are who they say they are.

What is RIDE?

It deters and detects fraud, as well as reduces the use of fraudulent documents.

Data Entry

The employer enters the employee's Form I-9 information, including driver's license (DL) data

Initial Verification

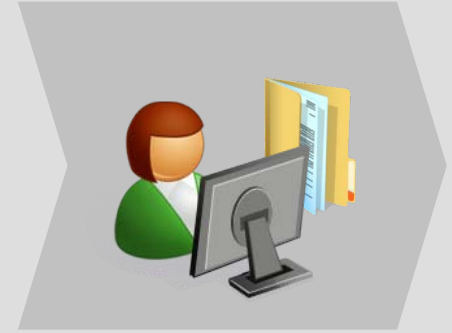

VIS performs automated check against SSA, DHS, and MVA records

NO Photo Matching

Photo matching is not currently part of the RIDE enhancement, but verification of photos may be explored for future implementations

Case Result

Employer receives a case result of Employment Authorized or tentative nonconfirmation (TNC)

What is RIDE?

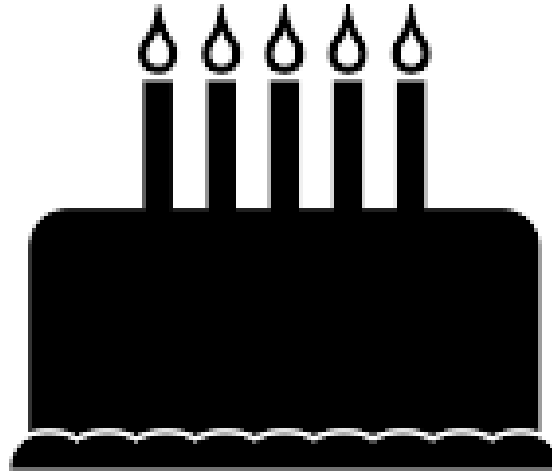

At no point do we ever show the employer any information from the jurisdiction record.

What is RIDE?

The employer will only receive an “Employment Authorized” response or a prompt to have the employee contact DHS if there’s a mismatch.

Current Status...

Current Status

On 12 JUNE 2012, RIDE celebrated its first birthday

Current Status

Since then, we've run over 250,000 queries against MDPS records.

Current Status

And encountered zero problems

Current Status

We're pretty proud of RIDE

So why should your jurisdiction
join?

Why join RIDE?

There are a lot of good reasons to partner with DHS and the RIDE program.

Why join RIDE?

But here are three...

1.

It reinforces your agency's commitment to
fighting document fraud

E-Verify saw 13.3 million drivers' licenses and state IDs used by employees last year

Over 1.1 million of those came from
Region I Jurisdictions

2.

If your state has passed a mandatory E-Verify law, RIDE reinforces your state's commitment to a legal and eligible workforce.

3.

Joining RIDE doesn't require you to hire any new staff, buy any new technology, or drain already overworked resources.

This is a low to NO cost initiative

HOWEVER...

DHS/USCIS is committed to covering any resources or staff time that's needed to launch and maintain the RIDE partnership.
