# Current Interoperability Announcements

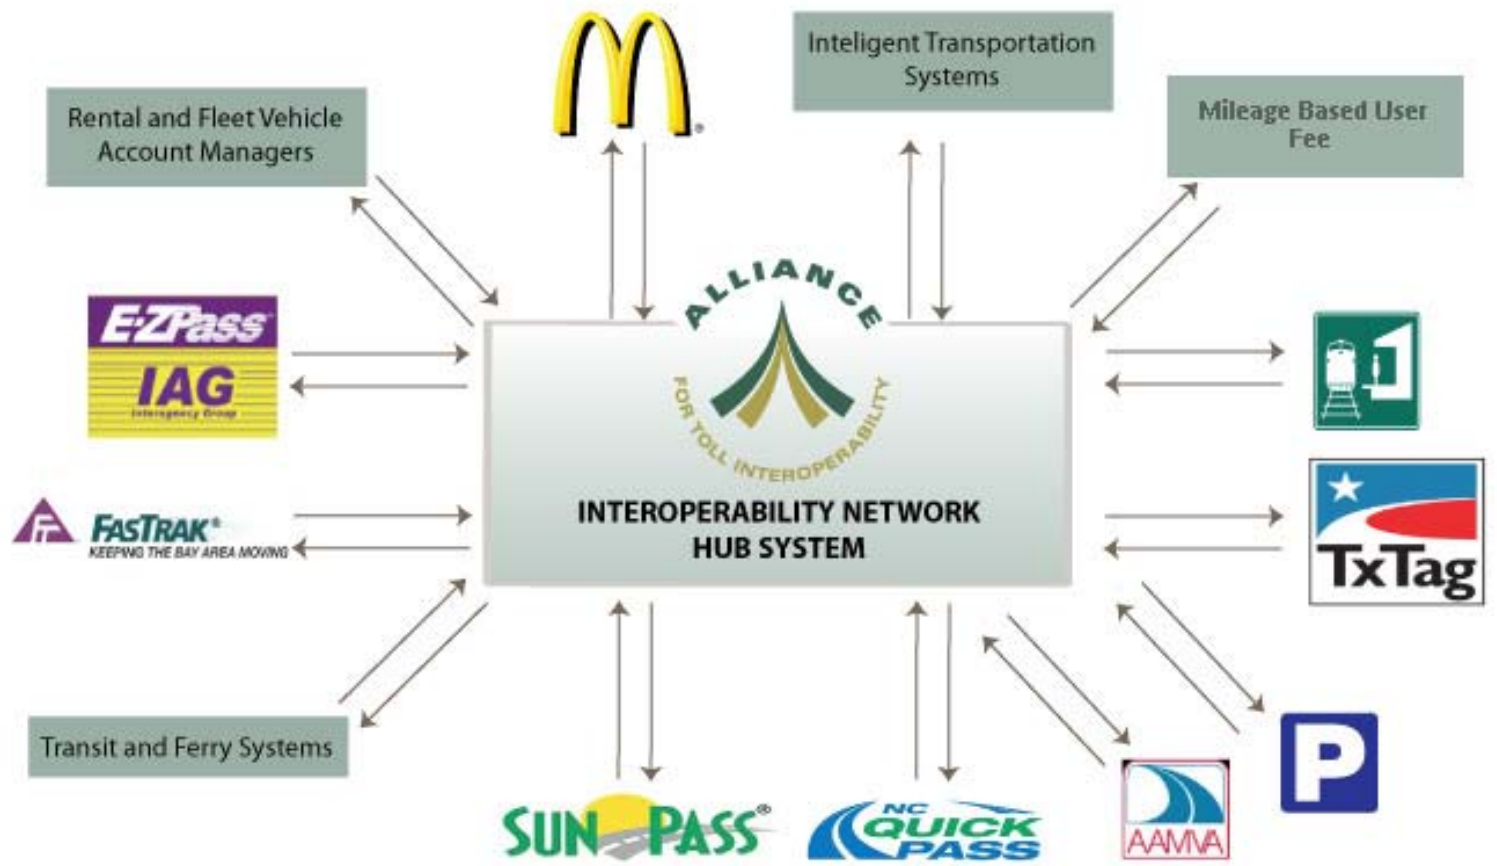

- **Oklahoma Tax Commission/Oklahoma Turnpike Authority and Texas DOT- Turnpike Division & Texas DMV are in the final stages of signing a contract to exchange license plate information at no charge.**
- **Florida and North Carolina have announced their interoperability, allowing customers to travel toll roads using either SunPass or NCQuickPass**

# Current Interoperability Announcements

- **ATI has announced an agreement with SIF to provide a national Interoperability HUB**
- **Agencies may sign on starting in September with full services going live within a year.**

# Current Interoperability Announcements

- **AAMVA White Paper – for North American Toll Operators & DMV offices to move toward interoperability via AET. Emphasizes sharing registration information, reciprocity, communication of needs, improvements for video enforcement systems**

# Current Interoperability Announcements

White Paper expresses:

- **DMVs are integral to tolling authorities in areas of information: DMV data used to identify registrants, send bills**
- **DMVs are currently helping to enforce toll collection**
- **Toll collection helps to fund highways & bridges**
- **Toll operators & coalition groups should partner with DMVs to provide DMVs with revenue & information sharing**

# Partnership is a win for both DMVs & Toll Agencies

- AET is increasing customer service for toll agencies
- AET is making it easier for states to add user fee highways
- AET requires good vehicle owner information
- Toll agencies can share updated information with DMVs
- Toll Agencies could share revenue with DMVs (particularly out of state agencies)
