

Got to be a better way...

“Privacy v2.0” – new and improved for online transactions

ID Ecosystem Privacy

- Standards
 - FIPPs
 - CPBR
- Key Principles (PII)
 - Use clearly communicated
 - Collected/kept only as needed
 - Secured against unauthorized access
 - Auditable (conforming to FIPPs)

ID Ecosystem Privacy (continued)

- Individual Control
- Limited Data Access
- De-centralized
- Fewer PII Targets

Privacy Evaluation Methodology

- Comprehensive
- Data Lifecycle
 - Characterization; Analysis; Mitigation & Compensating Controls
- FIPPs & CPBR Analysis
- Risks Analysis
- Data Flow & 'State' Change
