Motor Vehicle Network (MVN)

Brad Savage
bsavage@mvnetwork.com

P: 800-922-9933
www.mvnetwork.com

Motor Vehicle Network (MVN) installs high-definition flat screen TVs in DMV offices which broadcast information to customers in the waiting area without the use of audio. MVN is used as a communications tool between DMV headquarters and their customers to update current events, promote safety initiatives, changes to regulations, emergency messages and office procedure information. In addition, MVN can integrate with your queuing provider, partitioning the screen to show the current queuing numbers. Through sponsorship underwriting, MVN installs, updates and maintains the system at no cost to the jurisdiction. Our established longevity and customer service commitment has resulted in MVN’s outstanding reputation across the country.

MV VeriSol provides a comprehensive turnkey solution for real-time motor vehicle insurance verification. MV VeriSol’s Motor Vehicle Insurance Verification software (MVIV™) performs both event-based verification (traffic stops, registrations, accidents, courts) and ongoing verification to identify cancellations and gaps in coverage. MVIV performs online verification directly with insurance companies based on IICMVA specifications and industry standards with enhancements and integration as required by each jurisdiction. MVIV can reduce the uninsured motorist rate by up to 80% while providing a positive cash flow for the jurisdiction. Each jurisdiction has the flexibility to implement differently based on legislation, business rules, preferences, and budget.

Founded in 1913 and chartered by the U.S. Congress as a nonprofit organization, NSC is dedicated to saving lives and preventing injuries on our roads, at work, in our homes and throughout our communities. NSC programs include driver training, emergency care and occupational training. NSC also invests significant efforts into advocacy-related issues such as distracted driving, teen safe driving, workplace safety, and prescription drug overdose. The NSC Driver Safety Division, sponsoring at this conference, is focusing its efforts on reducing the number of suspended drivers that continue to drive in spite of sanctions imposed on their driving record. To learn about how our program can dramatically lower the number of traffic violations for those drivers who participate and reduce the number of suspended drivers that continue to drive on your state's roadways, visit us during the QuickConnect. Be sure to ask about our new Distracted Driving Online program.

P: 404-353-7046   www.qless.com
Delivering vital services to citizens in a timely and efficient manner is a major challenge for motor vehicle offices. Cloud-based software from QLess dramatically advances the delivery of service by replacing lines with “virtual queues” – providing an efficient approach to schedule and manage appointments. By replacing outdated ticketing machines with our easy-to-use technology, citizens enter lines remotely and wait anywhere until their turn arrives. Your QLess system shares expected wait times and status updates via text, phone, on-site kiosks, and monitors. The result: improved service flow, higher citizen satisfaction, lower operating costs, and a boost to staff productivity and spirit.
