DMV and Interlock – Interlock Perspective

- Determine goals of program
- How will data be integrated into program
  - Data predictor of future behavior
- Communication
- Unfunded mandates
DMV’s and Interlock Partnership

• Develop creative solutions to problems
  • Forms, data integration, information

• Develop Best Practices
  • Compliance based removal
  • Program exit

• Aid in capturing a revenue stream for program
Conclusion

• How best to utilize the technology
• Data identifies the people that need the program the most
• Device monitors the behavior to ensure people are back on the road safely
• Ultimate goal is highway safety
