AAMVA Welcomes Colorado Official as Chair of the AAMVA International Board of Directors

Arlington, VA – The American Association of Motor Vehicle Administrators (AAMVA) has elected Mike Dixon, Senior Director, Division of Motor Vehicles at the Colorado Department of Revenue, as Chair of its International Board of Directors.

“AAMVA is very excited to have Mike Dixon coming on board as our new Chair,” said Anne Ferro, AAMVA President and CEO. “His many years of public service, working to assess risk and reduce incidents in the aviation and vehicles sectors, and to improve service to all, both in Colorado and across North America, will benefit AAMVA greatly in the forthcoming year.”

Mike Dixon has been the Senior Director for the Division of Motor Vehicles in the Colorado Department of Revenue since July 1, 2011. Colorado’s DMV provides its residents with driver and vehicle services as well as providing operational support to 64 counties for vehicle services. He was the Business Sponsor for the Colorado DRIVES project which replaced decade’s old DMV IT systems for driver and vehicle services; and today he’s leading the DMV’s expansion of online services. Previously he served as the President for AAMVA Region 4. He is also currently vice-chair of the Colorado DRIVES County Governance Committee.

Prior to his employment with the State of Colorado, Mike served in the United States Army with assignments throughout the United States and worldwide including Korea, Europe and Southwest Asia. He has a Bachelor of Science in Engineering from the United States Military Academy (West Point), a Masters in Business from Webster University, and a Masters in National Security and Strategic Studies from the United States Naval War College.

Founded in 1933, AAMVA serves North American motor vehicle and law enforcement agencies to accomplish their missions. The association’s vision of *Safe Drivers, Safe Vehicles, Secure Identities, Saving Lives!* guides AAMVA’s activities, resources, and programs in driver licensing, vehicle titling/registration, motor carrier services, identity management, and technology solutions.
