NMVTIS has two third party transactions that involve updates between the central site and multiple states. Because the transactions involve multiple states and the central site, it is possible for a transaction to break down before it completes. Further activity against this title record is greatly restricted until the problem is resolved. This webinar provides instruction as to how to identify and resume suspended transactions. The intended audience for this webinar are NMVTIS Help Desk Personnel, Business Process Analyst and IT System Integrators.

A partnership between the Las Vegas Township Justice Court and the Nevada Department of Motor Vehicles has been extended following a successful six-month pilot program. ### DVSA Aims to Stop Violence Against Its Staff

The UK Driver and Vehicle Standards Agency (DVSA) is taking a zero tolerance approach to physical and verbal assaults against its staff. Between April 2016 and March 2017, more than 300 driving examiners, vehicle testers and roadside enforcement staff suffered physical or verbal abuse while doing their jobs. This was an increase of more than 50% on the previous year. Attacks on staff have included:

- verbal abuse and death threats
- damaging staff cars and offices
- serious physical assaults
- lorry drivers trying to run DVSA enforcement cars off the road
- failed driving test candidates driving off with their examiner still in the car against their will

DVSA's campaign aims to put a stop to this completely unacceptable abuse against its staff. [Read more here](#).
