AAA: Younger Millennials Top List of Worst Behaved Drivers

A new report from the AAA Foundation for Traffic Safety finds that while young millennials are the riskiest drivers – none of us are setting good examples. According to the study, almost 90 percent of young millennials – defined as those between the ages of 19-24 - engaged in at least one risky behavior behind the wheel in the past 30 days, earning the top spot of worst behaved drivers in the US. These dangerous behaviors — known to increase crash risk — included texting while driving, speeding and running red-lights. In fact, 50 percent of the young millennials said they'd driven through a red light in the past month. These findings come as U.S. traffic deaths rose to 35,092 in 2015, an increase of more than 7 percent, the largest single-year increase in five decades. [Read more here.](#)
